**Does God Intervene Today?**

It is widely believed by reformed Christians that the work by B B Warfield is the definitive answer to the question of miracles after the Apostles. This book is written by a non-charismatic from the reformed fold who believes God **does** intervene in the world today, and gives evidence to prove it. Reformed Christians should never be afraid to question the work of other human beings... and this book is a lively contribution to what is hoped will be a re-opening of the discussion!
