

NO SUCH THING as a homosexual condition

Written by K B Napier

NEVER FORGET. There is NO SUCH THING as a homosexual condition, only homosexual behaviour.

That means homosexuals are not born, nor are they genetically predisposed - they just choose to do something heinous against God's will and design. Thus, men and women, through sheer lust, turn to perversion. Then, most of them change back to normality again. This means that the true figure for homosexuality at any one time is far below 1%, and probably very much less. The woman in this story is right to insist they are not 'ex-gays'. No, they are returning to normality after a period of stupidity and wicked sin. Video available here <http://patriotupdate.com/videos/once-gay-now-christian-couple-discuss-homosexuality>
