The video above is a reminder of the real face of Islam that politicians like David Cameron deny.

A recent article by the [Gatestone Institute](#) describes the situation of Islamic cultural Jihad and Isalmification of France with Sharia Police.

The warnings have been coming for years – but what Christians will listen?

Their safety and freedoms are being hit hard by Islam, but Christians say and do absolutely nothing. And their silence affects people who DO speak out and act! Islam MUST BE STOPPED in the West... the alternative is to allow Islam to drag society into a pit it has dug for about 1500 years, a pit of degradation, godlessness, slavery, and death.

SO WE WARN AGAIN.

WHO WILL LISTEN?

We MUST act before western men have had enough and begin civil battles in the streets. These battles have already taken place, mainly unreported by the media.
